The Plugged-In IT Refurbishment project was started during Covid and has now given out over 1,3000 devices. We take donations of unwanted IT equipment that are then refurbished and given out to those in need in the community.

Online Referral Form

Make a Referral

To make a referral scan the QR Code to the left to fill in our simple online referral form, this will add you to our waiting list for your IT Equipment. Depending what you ask for determines how long you can expect to wait, information about this is on the form.

Make a Donation / Find Out More

The project is reliant on donations of unwanted technology, so we are always on the look out for more. To find out what we accept follow the QR Code to our website where you will also find more information about the project.
